

**Application for Issuance of a United Nations LAISSEZ-PASSER**

**PHOTOGRAPHS**

1. Photographs are a vital part of the application. All photographs submitted with applications for United Nations travel documents must have been taken **within six months** of the date of the application. Failure to provide photographs that do not comply with these guidelines will result in processing delays. The acceptance of photographs is always at the discretion of the document issuing office.
2. Certifying officers must ensure that the photographs are recent, of the applicant and meet the ICAO standards (as per these guidelines) before the application is forwarded for processing.

**Photographs must be:**

- In colour
- Printed on photo quality paper
- 2 x 2 inches (51 x 51 mm) in size
- Taken within the last 6 months to reflect applicant’s current appearance
- Taken in front of a plain white background (no shadows may be visible)
- Taken in full-face view directly facing the camera
- With a neutral facial expression and both eyes open (teeth should not be visible as this will affect the biometric scanning and recognition of the photograph)

**Subjects must not:**

- Wear hats and other head coverings, unless worn daily for religious purposes (the full face must be visible and no shadows may be cast on the face)
- Wear headphones wireless hands-free devices or similar items
- Wear glasses

**Photographs will be rejected if they:**

- do not meet above requirements
- are colour copies
- are digitally scanned from another document
- are snapshots, low quality vending machine or mobile phone photos, full-body photographs

3. It is recommended that all passport photos are taken by professional passport photo services. When photos are taken in private settings, it is almost impossible to achieve the required quality results, unless multiple light sources are used to illuminate the subject. A single flash light will not suffice, to produce sufficient light for a bright, white background and will also cast shadows of the subject.
