Financial audit report

Audit opinion on the project financial statement

Report of the Independent Auditors to UNOPS office Mongolia

We have audited the accompanying project financial statement for the project ‘Integrated Natural Resource Management in the Baikal Basin Transboundary Ecosystem’ ("the project") (Atlas project ID 00078317), which is implemented and managed by the UNOPS Office in Mongolia, for the period from 1 February 2011 to 31 March 2015.

Management responsibility for the financial statement

Management is responsible for the preparation and fair presentation of the financial statement in accordance with International Public Sector Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on the financial statement based upon the results of our audit. We conducted our audit in accordance with the International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation of a financial statement that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Auditor’s opinion

In our opinion, the financial statement gives a true and fair view of, in all material respects, the income and expenditure of the project ‘Integrated Natural Resource Management in the Baikal Basin Transboundary Ecosystem’ ("the project") (Atlas project ID 00078317), for the period from 1 February 2011 to 31 March 2015 in conformity with the terms of the agreements and in accordance with International Public Sector Accounting Standards.

Emphasis of matter

Without qualifying our opinion, we draw your attention to audit observation 1, as set out in Annex I, which represents a matter we came across during the conduct of our financial audit. The financial
impact of this observation is US$ 9,268.24, which reflects 0.28% of the expenditure reported in the financial report and is not considered material in the context of our audit.

<td>VAT incorrectly claimed in the financial report</td>
<td>Project staff should ensure that the VAT status is understood both internally and by their suppliers. When paying invoices, the approval process should ensure that no VAT is included. In cases where VAT is incorrectly included on supplier invoices, these should be reissued from the supplier before payment is effected. Additionally the project should pursue the recovery of VAT amounts it has paid incorrectly.</td>
<td>The Project staff is aware of the VAT status. Suppliers involved in the Project implementation period are aware that they are not VAT payers and are aware of status of money coming from International organizations, such as UNOPS or UNDP. The Project has been working with all suppliers on definite known VAT terms, however due to human factor in some rare cases VAT was included on invoice from supplier, what surely had to be noted and supplier should</td>

#### Observation 1

**Comparison criteria**

As a result of the UNDP Russia hosting arrangements, the project enjoys exemption from paying VAT. Accordingly VAT should not be included on supplier invoices, nor should it be paid with project funds.

**Facts / observation**

Although the majority of the suppliers’ invoices correctly excluded VAT, we noticed some instances where invoices did include VAT, as presented in the table below:

<table>
<thead>
<tr>
<th>INVOICE_ID</th>
<th>Amounts in RUB VAT incl.</th>
<th>VAT in RUB</th>
<th>Amounts in USD VAT incl.</th>
<th>VAT in USD</th>
</tr>

<td>11,899.10</td>
<td>1,815.12</td>
</tr>
</tbody>
</table>
The suppliers in question had also issued invoices exclusive of VAT, and it is therefore unclear why it was included in these instances.

As a result, UNOPS mistakenly paid VAT, amounting to US$ 9,268.24 and reported this in its financial report.

**Impact**

The financial report includes amounts which could have been avoided had the VAT status of the project been respected.

**Cause**

Human error
