Operational overview

In 2012, UNOPS was selected as the Fund Manager for the 3MDG Fund. The Fund was a US\$ 284 million fund supported by seven international donors: Australia, Denmark, the European Commission, Sweden, Switzerland, the United Kingdom and the United States of America.

From 2013 to 2018 the 3MDG Fund supported the provision of health services in Myanmar and contributed towards the country's efforts to achieve the three health-related Millennium Development Goals. These goals included reducing child mortality, improving maternal health and combating HIV, Tuberculosis and Malaria. The fund was managed through the UNOPS Fund Management Office (FMO) and Implementing Partners (IPs) selected by the FMO. 2018 was the last year of the fund's operations.

The audit team extends its appreciation to the management and staff members of UNOPS office in Myanmar for their full cooperation during the audit.

Annex I - Definitions

Standard audit ratings for overall performance of internal control system

Effective 1 January 2017, the internal audit services of UNDP, UNFPA, UNICEF, UNOPS and WFP adopted harmonized audit rating definitions, as described below. IAIG assesses the entity under review as a whole as well as the specific audit areas within the audited entity:

- (a) satisfactory (effective),
- (b) partially satisfactory (some improvement needed),
- (c) partially satisfactory (major improvement needed), and
- (c) unsatisfactory (ineffective).

The elements of the rating system take into account the audited office's internal control system, risk management practices, and their impact on the achievement of office objectives.

The definitions of the ratings are, as follows:

Standard rating	Definition
Satisfactory (effective)	The assessed governance arrangements, risk management practices and controls were adequately established and functioning well. Issues identified by the audit, if any, are unlikely to affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (some improvement needed)	The assessed governance arrangements, risk management practices and controls were generally established and functioning, but need some improvement. Issues identified by the audit do not significantly affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (major improvement needed)	The assessed governance arrangements, risk management practices and controls were established and functioning, but need major improvement. Issues identified by the audit could significantly affect the achievement of the objectives of the audited entity/area.
Unsatisfactory (ineffective)	The assessed governance arrangements, risk management practices and controls were either not adequately established or not functioning well. Issues identified by the audit could seriously compromise the achievement of the objectives of the audited entity.
