Operational overview

The Global Fund provides financing for TB, HIV and Malaria activities in Myanmar, with a total value of US\$ 154 million for 2018-2020 through UNOPS in Myanmar as a Principal Recipient (PR).

UNOPS has evolved a cascading model approach for implementing the activities in the programme. Under this model funds are received centrally by UNOPS, as PR, activities are undertaken by the PR and Sub-Recipients (SR) in close association with the PR, while funding for the activities is handled by UNOPS.

The audit team extends its appreciation to the management and staff members of UNOPS office in Myanmar for their full cooperation during the audit.

Annex I - Definitions

Standard audit ratings for overall performance of internal control system

Effective 1 January 2017, the internal audit services of UNDP, UNFPA, UNICEF, UNOPS and WFP adopted harmonized audit rating definitions, as described below. IAIG assesses the entity under review as a whole as well as the specific audit areas within the audited entity:

- (a) satisfactory (effective),
- (b) partially satisfactory (some improvement needed),
- (c) partially satisfactory (major improvement needed), and
- (c) unsatisfactory (ineffective).

The elements of the rating system take into account the audited office's internal control system, risk management practices, and their impact on the achievement of office objectives.

The definitions of the ratings are, as follows:

Standard rating	Definition
Satisfactory (effective)	The assessed governance arrangements, risk management practices and controls were adequately established and functioning well. Issues identified by the audit, if any, are unlikely to affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (some improvement needed)	The assessed governance arrangements, risk management practices and controls were generally established and functioning, but need some improvement. Issues identified by the audit do not significantly affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (major improvement needed)	The assessed governance arrangements, risk management practices and controls were established and functioning, but need major improvement. Issues identified by the audit could significantly affect the achievement of the objectives of the audited entity/area.
Unsatisfactory (ineffective)	The assessed governance arrangements, risk management practices and controls were either not adequately established or not functioning well. Issues identified by the audit could seriously compromise the achievement of the objectives of the audited entity.
