Operational overview

The Phase II: Yemen Integrated Urban Services Emergency Project (YIUSEP II) is a project financed by the World Bank (hereinafter 'the Bank') which aims to restore access to critical urban services and strengthen resilience to shocks in selected cities within the Republic of Yemen.

The primary beneficiaries of the project are the residents of the selected urban, peri-urban and rural areas in Yemen (3 million), including IDPs, marginalized groups such as women, girls and children who are the primary beneficiaries of improved services by having more access to improved drinking water and improved wastewater collection and treatment services.

The targeted services cover four sectors:

- (i) tertiary municipal services and solid waste management.
- (ii) urban water and sanitation.
- (iii) urban roads.
- (iv) electricity for critical services.

Besides, the project includes three components:

Component 1: Service Restoration:

- 1.1: Tertiary Municipal Services and Solid Waste Management
- 1.2: Urban Water and Sanitation
- 1.3: Urban Roads
- 1.4: Electricity for Critical Services

Component 2: Implementation Support and Capacity Development

- 2.1: Project Implementation and Management Support
- 2.2: Enhanced Capacity Building
- 2.3: Third-Party Monitoring
- 2.4: Supporting SWM service Delivery Improvement through Results Based Financing

Component 3: Contingent Emergency Response.

In June 2021, UNOPS and the World Bank signed a legal agreement for USD 50 million, set to span 36 months. The World Bank IDA invested an additional USD 120 million to implement the project activities through a Financing agreement signed in February 2022. This increased the budget to USD 170 million and extended the project duration to 48 months. In August 2023, the World Bank signed a second Additional Financing agreement, providing USD 19.5 million and secured a grant of USD 5.9 million from the Global Partnership for Results-Based Financing (GPRBA). These funds are dedicated to ongoing efforts to restore access to critical urban services and enhance resilience to shocks in selected cities within Yemen, resulting in a total project budget of USD 195.4 million.

The audit team extends its appreciation to the management and staff members of UNOPS office in Yemen for their full cooperation during the audit.

Annex I - Definitions

Standard audit ratings for overall performance of internal control system

Effective 1 January 2017, the internal audit services of UNDP, UNFPA, UNICEF, UNOPS and WFP adopted harmonized audit rating definitions, as described below. IAIIG assesses the entity under review as a whole as well as the specific audit areas within the audited entity:

- (a) satisfactory (effective),
- (b) partially satisfactory (some improvement needed),
- (c) partially satisfactory (major improvement needed), and
- (d) unsatisfactory (ineffective).

The elements of the rating system take into account the audited office's internal control system, risk management practices, and their impact on the achievement of office objectives.

The definitions of the ratings are, as follows:

Standard rating	Definition
Satisfactory (effective)	The assessed governance arrangements, risk management practices and controls were adequately established and functioning well. Issues identified by the audit, if any, are unlikely to affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (some improvement needed)	The assessed governance arrangements, risk management practices and controls were generally established and functioning, but need some improvement. Issues identified by the audit do not significantly affect the achievement of the objectives of the audited entity/area.
Partially satisfactory (major improvement needed)	The assessed governance arrangements, risk management practices and controls were established and functioning, but need major improvement. Issues identified by the audit could significantly affect the achievement of the objectives of the audited entity/area.
Unsatisfactory (ineffective)	The assessed governance arrangements, risk management practices and controls were either not adequately established or not functioning well. Issues identified by the audit could seriously compromise the achievement of the objectives of the audited entity.
