“It is getting very risky for the kids.” For these Tanzanians living by the Indian Ocean, the effects of climate change are all too real. @UNOPS @UNEnvironment & @theGEF are helping. <https://goo.gl/QiMg1U>

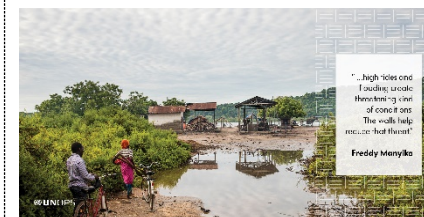

Climate change is one of the biggest challenges of our time. We must build resilience to its impacts now, for the generations to come: <https://goo.gl/ie1yY2>

“First we were losing land. Then the buildings would have been next to fall down.” For residents along the coast of Tanzania, rising sea levels & the impact of climate change gets too close for comfort. <https://goo.gl/QiMg1U>

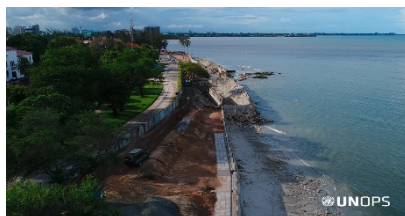

Tides, waves, tsunamis ... how can we help protect the lives & livelihoods of people living in coastal areas from the forces of the ocean? <https://goo.gl/ie1yY2>

Meet the Kavishe family. With their lives built on the banks of the Indian Ocean, they have a message to share about climate change: <https://goo.gl/QiMg1U>

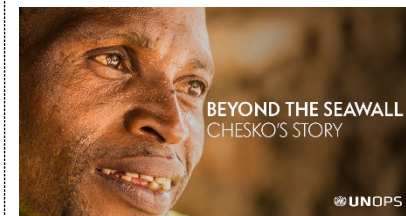

Here’s how @UNOPS @UNEnvironment + partners are helping to protect the lives & livelihoods of coastal-residing Tanzanians from the forces of the Indian Ocean: <https://goo.gl/crAQBUB>

For many of the 12M or so Tanzanians living on < 60 cents a day, climate change is a threat to an already meagre livelihood: <https://goo.gl/ie1yY2>

For nearly 2 decades, his livelihood in the coconut market has been affected by weather & the tides. This is Chesko’s story. <https://goo.gl/crAQBUB>

FACEBOOK

Greenhouse gas emissions are at unprecedented highs. Our environment is responding and women, men and children all over the world are experiencing more extreme and unpredictable weather events. This #WorldEnvironmentDay we bring you stories from Tanzania: <https://goo.gl/QiMg1U>

For many of the 12 million or so Tanzanians living on less than 60 cents a day, the impacts of climate change threaten an already meagre livelihood. [UNOPS](https://goo.gl/QiMg1U), UN Environment and partners are working with coastal communities in Tanzania to help protect their way of life and build a sustainable future. <https://goo.gl/QiMg1U>

Strong partnerships can go a long way towards reducing the impacts of climate change! Check out the work we did with [UNOPS](https://goo.gl/QiMg1U), the Government of Tanzania [Global Environment Facility](https://goo.gl/QiMg1U) and [Adaptation Fund](https://goo.gl/QiMg1U) in Tanzania: <https://goo.gl/ie1yY2>

Rising sea levels, the force of waves and high tides have eroded away at the land in front of Beatrice's home and threatened her way of life. <https://goo.gl/QiMg1U>
