[SCHEDULE PREPARATION GUIDANCE NOTES:**PLEASE DELETE THESE NOTES BEFORE ISSUING THE CONTRACT TO TENDERERS**

Throughout the Schedules there are guidance notes which are shown in brackets, bold and italics and are highlighted in various colours.

1. Drafting notes and examples

Square brackets around bold, italic text highlighted grey (including this text) indicate "drafting notes" or "examples". This text must be deleted prior to finalising the Contract Conditions and before the Contract is issued to tenderers.

2. Fields to be populated before the Contract is issued to tenderers

Square brackets around bold, italic text which is highlighted yellow, for example "[insert]", indicate that you are required to either:

- (a) insert new text; or*
- (b) choose between the alternatives offered within the square brackets, or*
- (c) delete the text,*

Any yellow highlighted text fields must be completed and the square brackets, italic and yellow highlight removed prior to finalising the schedules ready to be issued to tenderers.

3. Fields to be populated during negotiations and prior to signing the execution version of the Contract.

Square brackets around bold, italic text which is highlighted blue, for example "[insert]", indicate information which will be finalised, agreed and completed by UNOPS in conjunction with the preferred tenderer during negotiations.

Any blue highlighted text fields must be completed and the square brackets, italic and blue highlight removed prior to finalising the execution version of the Contract ready to be issued to the UNOPS HQPC and before the final Contract is signed.

4. Other general notes

- (a) As a standard rule the General Conditions are fixed and are only to be amended through the use of Particular Conditions approved by the UNOPS legal department.*
- (b) It is important that you complete the Schedules in sufficient detail to enable the tenderers to understand UNOPS' project specific requirements and their obligations. This will assist tender evaluations, enable tenderers to provide realistic prices and also reduce the scope for requests for further information and extensions to the tender closing date.*
- (c) If there is too much information to be physically included in the Schedules, appropriate documents, for example drawings, general/particular/technical*

specifications and UNOPS' internal guidelines and procedures manuals, can be incorporated by reference within the Schedules and annexed to the Contract. Where this is done, the Schedule must clearly identify the documents by author, title, date and revision number. The Schedule must also clearly identify the annexure number. For example:

In preparing any design, the Subcontractor must comply with the technical standard entitled "XYZ" prepared by [insert] and dated June 2008, which is included in Annexure A [Technical Standards]

- (d) Care must be taken when using information and/or old schedules which have been prepared for a previous project, as they may not be appropriate or contain sufficient detail for a different works package.**
- (e) Care must also be taken to ensure that the content of the Schedules are consistent with the General and Particular Conditions of the Contract. To ensure consistency, the project specific and technical information to be inserted in the Schedules, should be prepared and reviewed by the project team in conjunction with reading the General and Particular Conditions.**
- (f) The Schedules also contain certain forms of agreements, guarantees and warranties. These are standard forms.**
- (g) Any personnel, including external consultants, preparing tender documents should be familiar with this Contract and the Schedules.**

The Contractor must defend, hold and save harmless and indemnify the Employer against all claims and proceedings, as well as damages and compensation in relation to any accident or injury to any of the Contractor's Personnel, unless resulting from any act or default of the Employer, its agents or servants. Programme

Within the time stated in the Schedule of Details, the Contractor must submit to the Employer's Representative for approval, a programme for the Works in accordance with and in the form stated in the Schedule of Works. The programme will be used to monitor the progress of the Works under the Contract. The Employer's Representative may request the Contractor to submit an amended programme at any time for approval.

7.3

Extension of Time

Subject to Sub-Clause 10.3, the Contractor may be entitled to an extension to the Time for Completion if it is or will be delayed by any of the Employer's Risks.

Despite any other provision in this Contract, the Employer's Representative may, in its absolute discretion and at any time, grant an extension to the Time for Completion. Such an extension must be granted in writing.

7.4

Late Completion

If the Contractor fails to complete the Works within the Time for Completion, the Contractor must pay delay damages for such failure in the amount stated in the Schedule of Details for each day for which the Contractor fails to complete the Works up to and including the Date of Substantial Completion as stated in the Taking-Over Certificate.

If the cumulative amount of delay damages reaches the amount stated in the Schedule of Details, the Employer may terminate the Contract at any time in accordance with Sub-Clause 12.1.

8. TAKING-OVER

8.1

Completion

The Contractor must notify the Employer's Representative in writing as soon as it considers that the Works have reached the stage of Substantial Completion.

8.2

Taking-Over Certificate

After receiving the notice under Sub-Clause 8.1, the Employer's Representative must either issue a Taking-Over Certificate stating the Date of Substantial Completion or notify the Contractor that there are defects or deficiencies in the Works that prevent Substantial Completion being reached.

If the Employer's Representative notifies the Contractor that there are defects or deficiencies in the Works, the Contractor must correct the defects or deficiencies and the procedures in this Clause 8 must be repeated until the Employer's Representative issues a Taking-Over Certificate.

The Contractor acknowledges and agrees that it takes full responsibility for the care of the Works until the Date of Substantial Completion and that no partial or entire use or occupancy of the Site or the Works by the Employer in any way constitutes an acknowledgement by the Employer that Substantial Completion has occurred, nor does it release the Contractor from any of its warranties, obligations or liabilities under or in connection with this Contract.

The Employer must take over the Works upon the Date of Substantial Completion.

After issuance of the Taking-Over Certificate the Contractor must promptly complete any outstanding work, submit a statement in accordance with Sub-Clause 11.2 and, subject to Clause 9, clear the Site.

The Contractor must remedy at no cost to the Employer any defects due to the Contractor's design, Materials, Plant or workmanship not being in accordance with

the Contract. The timing of remedying a defect must be agreed between the Parties, or failing agreement, be reasonably specified by the Employer's Representative.

If the Contractor fails to rectify the defect within the time agreed or specified, the Employer's Representative may do so or engage another party to do so at the Contractor's risk and expense and any cost will be a debt due from the Contractor to the Employer.

The Defects Notification Period will be extended to the extent that the Works, part of the Works or a major item of Plant (as the case may be) cannot be used for the purposes for which they are intended by reason of a defect or damage or failure by the Contractor to comply with any other obligation of the Contract and such extension will be equal to the period for which the Works, part of the Works or major item of Plant cannot be so used for the purpose intended or, if instructed in writing by the Employer's Representative, the Defects Notification Period will recommence (and restart from the beginning) from the date of the repair, replacement or making good of such defect or damage, but only in respect of that part of the Works repaired, replaced or made good.

9.2

Uncovering and Testing

The Employer's Representative may give instruction as to the uncovering and/or testing of any work. Unless as a result of any uncovering and/or testing it is established that the Contractor's design, Materials, Plant or workmanship are defective or not in accordance with the Contract or the Contractor did not give sufficient notice in accordance with Sub-Clause 8.3 before covering the relevant parts of the Works, the Contractor will be paid for such uncovering and/or testing as a Variation in accordance with Sub-Clause 10.2. If the Contractor did not give sufficient notice in accordance with Sub-Clause 8.3 before covering the relevant parts of the Works or if the Employer's Representative establishes that the Contractor's design, Materials, Plant or workmanship are defective or not in accordance with the Contract, the Contractor must (at its cost) then promptly make good the defect and ensure that the rejected item complies with the Contract and bears the cost of uncovering and testing.

The Employer's Representative must issue the Final Completion Certificate within 28 days after the latest of the expiry dates of the Defects Notification Periods or as soon thereafter as the Contractor has supplied all relevant documents and completed and tested all of the Works, including remedying defects notified under Sub-Clause 9.1. A copy of the Final Completion Certificate must be issued to the Employer. Notwithstanding this the Employer may issue the Final Completion Certificate at any time after the Employer's Representative has issued the Taking-Over Certificate.

9.4

Unfulfilled Obligations

After the Final Completion Certificate has been issued, each Party remains liable for the fulfilment of any obligation which remains unperformed at that time. For the purposes of determining the nature and extent of unperformed obligations, the Contract is deemed to remain in force.

10. VARIATIONS AND CLAIMS

10.1

Right to Vary

The Employer's Representative may, in its absolute discretion and at any time before the Taking-Over Certificate is issued, initiate, or immediately instruct Variations by written notice and the Contractor must carry out and be bound by any such Variations. Unless otherwise instructed by the Employer's Representative in this notice, the Contractor must provide a detailed breakdown of the increase or decrease in the Contract Price and any effect on the Time for Completion within 7 days of receipt of this notice, and before the Contractor carries out the Variation. The Contractor must then execute and is bound by the Variation unless otherwise instructed by the Employer's Representative.

The Contractor agrees that a Variation may involve an omission of any part or parts of the Works and in the case of an omission the Employer may engage others to perform that part or parts so omitted.

Variations will be valued by the Employer's Representative as follows:

- (a) at a rate or lump sum price agreed between the Parties, or in the absence of agreement
- (b) where appropriate, at rates in the Bill of Quantities, or if there are no applicable rates in the Bill of Quantities, at the rates in the schedule of Variation rates contained in the Schedule of Contract Price, or
- (c) in the absence of appropriate rates, then a fair and reasonable valuation of the Variation will be made by the Employer's Representative, or
- (d) if the Employer's Representative so instructs, at daywork rates set out in the Schedule of Contract Price for which the Contractor must keep records of hours of labour and Contractor's Equipment, and of Materials used.

For the avoidance of doubt the Contractor's entitlement to payment for a Variation excludes non-project specific overheads and costs.

10.3

Notice of Delay

The Contractor must notify the Employer's Representative as soon as practicable and in any case in writing no later than 7 days (or within a time frame notified by the Employer's Representative) after it becomes aware of any event or circumstance which may delay or disrupt the Works, or which may give rise to a claim for additional payment, Costs and/or other entitlements or relief from obligations, under any Clause of these General Conditions or otherwise arising out of or in connection with the Contract. The Contractor must take all reasonable steps to minimise these effects.

The notice submitted by the Contractor under this Sub-Clause 10.3 must set out details of the event or circumstance giving rise to the claim, and if requested supply supporting documents, stating a reasonable period by which the Contractor believes the Time for Completion should be extended and the nature and extent of any additional resultant Costs. As soon as practicable after the receipt of this notice, the Employer's Representative will notify the Contractor of the period, if any, by which the Time for Completion will be extended and additional payment of Costs (if any) to which the Contractor is entitled under the Contract. The Employer's Representative may also respond with comments and request any necessary further particulars.

The Contractor is not entitled to an extension to the Time for Completion or additional payment or Costs if it does not submit a notice in accordance with and within the time stated in Sub-Clause 10.3 in which case the Contractor will be deemed to have waived its entitlement to make such claim, the Employer will be discharged from all liability arising out of or in connection with the claim and the Contractor must comply with its obligations to perform the Works by the Time for Completion and for the Contract Price.

10.4

Right to Claim

Subject to Sub-Clause 10.3, if the Contractor incurs Cost as a result of any of the Employer's Risks, other than a Force Majeure event, the Contractor will be entitled to the amount of such Cost. If as a result of any of the Employer's Risks, it is necessary to change the Works, this will be dealt with as a Variation.

10.5

Adjustments for Changes in Cost

Unless otherwise expressly stated in the Schedule of Contract Price, the Contract Price, and the rates and prices inserted in the Bill of Quantities, will not be adjusted for rises or falls in the cost of labour, goods and other inputs to the Works and the Contract Price and the rates and prices inserted in the Bill of Quantities, will be deemed to include amounts to cover contingency of rises and falls in the cost of labour, goods and other inputs to the Works.

11.2

Statements

The Contractor must submit a statement to the Employer's Representative in accordance with the requirements and timings stated in the Schedule of Payment or otherwise as notified by the Employer's Representative in writing. Each statement must be in a form approved by the Employer's Representative, showing the value of the work performed and details of any other amounts to which the Contractor considers itself entitled. If requested by the Employer's Representative, when submitting the statement the Contractor must provide verification of all payments owed to subcontractors and the Contractor's Personnel.

The statement must be based on the prices and/or rates set out in the Bill of Quantities or as otherwise set out in the Schedule of Contract Price.

If a percentage is stated in the Schedule of Details, the Contractor will be entitled to that percentage of the value of Materials and Plant listed in the Schedule of Details if such Plant and Materials are in accordance with the Contract, delivered to and properly stored on the Site at a reasonable time.

Within 28 days after the Employer's Representative issues the Taking-Over Certificate, the Contractor must submit a statement to the Employer's Representative as its final statement in respect of the Contract Price and any claim the Contractor has in respect of the Works under the Contract which the Contractor considers to be due from the Employer for all events and circumstances that have occurred up to the Date of Substantial Completion stated in the Taking-Over Certificate.

The Contractor is not entitled to make, and the Employer is released from, any new claim or an increased existing claim against the Employer in respect of the Contract Price or otherwise in respect of all events and circumstances that have occurred up to the earlier of the submission of the statement or expiration of the 28 days.

- (c) The Bank Guarantee for advance payment payable in accordance with Sub-Clause 11.3(b), must be an unconditional and irrevocable on-demand bank guarantee in the form provided in the Schedule of Security, from a bank approved by the Employer. Unless and until the Employer receives this guarantee, Sub-Clause 11.3 will not apply.
- (d) The Contractor must ensure that the Bank Guarantee for advance payment is valid and enforceable until the whole of the advance payment has been repaid, but its amount may be progressively reduced by the amount repaid by the Contractor in the interim payments. If the terms of the guarantee specify its expiry date, and the advance payment has not been repaid by the date 28 days prior to the expiry date, the Contractor must extend the validity of the guarantee until the advance payment has been repaid.
- (e) The advance payment must be repaid by the Contractor through percentage deductions in interim payments. The Employer will deduct a percentage of each interim payment, at the rate stated in the Schedule of Payments, until such time as the advance payment has been repaid.
- (f) If the advance payment has not been repaid prior to the issue of the Taking Over Certificate for the Works or prior to termination of the Contract, the whole of the balance then outstanding will immediately become due and payable by the Contractor to the Employer.

The affected Party must use its best endeavours to overcome or remove the effects of the Force Majeure event as quickly as possible.

Upon completion of the Force Majeure event, the affected Party must as soon as is reasonably practicable recommence the performance of the affected obligations.

14.3

Failure to Insure

If the Contractor fails to effect or keep in force any of the insurances referred to in the previous Sub-Clauses, or fails to provide satisfactory evidence, policies or receipts, the Employer may, without prejudice to any other right or remedy, effect insurance for the cover relevant to such default and pay the premiums due and recover the same as a deduction from any other monies due to the Contractor.

- (b) the language of the arbitration must be English;
- (c) the decisions of the arbitral tribunal must be based on general principles of international commercial law. The arbitral tribunal must not award punitive damages. In addition, the arbitral tribunal must not award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest must be simple interest only.

The Parties will be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy, or claim.

The arbitral proceedings and any information and documents relating to these proceedings must be regarded as confidential.

15.4

Dispute resolution not to delay execution of the Works

Despite any activation of the dispute resolution procedures under Sub-Clause 15.1, the Contractor must continue to execute the Works and its other obligations under or in connection with the Contract.

15.5

Survival

This Clause 15 survives the completion, expiry or termination of the Contract.

16. PRIVILEGES AND IMMUNITIES

Nothing in or relating to the Contract is deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs, of which the Employer is an integral part, which are hereby expressly reserved.

SCHEDULE 2 - SCHEDULE OF WORKS

Note:

This Schedule must set out the Specification with a detailed description of the Works to be performed under this Contract.

The detailed description of the Works must be as clear as possible and must be broken into a series of subheadings including:

- (a) any relevant background and a general description of the Works;***
- (b) detailed description of the Works, including detailed technical requirements;***
- (c) any tests to be performed and passed;***
- (d) any specific standards which the Contractor is expressly required to comply with;***
- (e) any specific timing, milestones and program which the Contractor is expressly required to comply with;***
- (f) any project or control co-ordination procedures;***
- (g) any equipment or materials that the Employer has agreed to supply;***
- (h) the documentation that the Contractor is required to provide (e.g. manuals, Technical Material, outage reports); and***
- (i) any spare parts that the Contractor is required to provide.***

Any abbreviations must be defined and technical terms must be explained.

For example, this Schedule could be set out in the following manner:

1. Background and general description of the Works

[This section should include all relevant background information about the site or conditions that relate to the Works. It should also include general (1-2 line) descriptions of the Works]

2. Specifications

[insert detailed description of the Works and the Employer's technical requirements and references to drawings and other relevant materials where applicable. This section should contain detailed specifications for the Works and any design requirements in accordance with Sub-Clause 5.1. You must clearly identify the activities the Contractor has to perform in order to carry out the Works.]

Consider:

- the order in which activities must be carried out;***

- **who is responsible for delivery and unloading of materials and where to;**
- **are there any activities that the Employer will be performing during the contract term;**
- **what are the technical specifications that the Works must meet?**

For example:

The Contractor must:

(a) remove all cladding and lagging from the boiler;

(b) erect scaffolding;

(c) transport the new material from the stores to the worksite;

(d) weld all joints in accordance with the specifications set out below;

(e) etc

3. Drawings

A complete list of the Drawings should be set out here and are referenced by drawing number, title, date and revision number, of which the latest of each prevails and the Drawings attached.

4. Standards and procedures

The Contractor must comply with the following standards:

[In accordance with Sub-Clause 4.1, list any applicable occupational health and safety and environmental laws, guidelines, rules procedures and codes of practice with which the Contractor must comply while carrying out the Works. Quality assurance requirements should be included in this section]

The Contractor must comply with the following procedures:

[List any procedures with which the Contractor must comply in carrying out the Works (if any)]

5. Programme

This section is to set out the programme requirements in accordance with Sub-Clause 7.2. For example:

[The Contract Programme must be in such form and detail as the Employer's Representative requires and must contain as a minimum:

- (a) the order in which the Contractor proposes to carry out the Works;**

- (b) **the time limits within which submission of any Contractor's documents are required under the Contract.**

The Contract Programme must be prepared in sufficient detail to ensure the adequate planning, execution and monitoring of the Works. The networked activities must be detailed enough to provide a meaningful measurement tool for progress of works.

The Contract Programme must be resource loaded and include material, plant and labour. The labour resource assignment must be further broken down to clearly identify types (trade and/or discipline) and number of resources allocated to an activity.

The Contract Programme must be accompanied by and/or detail:

- (a) **a programme narrative that describes the inclusions and assumptions made in preparing the Contract Programme;**
- (b) **a general description of the arrangements and methods which the Contractor proposes to adopt for carrying out the Works;**
- (c) **the critical path for the Works and a complete critical path analysis for the execution of the Works which must show clearly the links between activities and the float times available within the Contract Programme and the earliest start/earliest finish and latest start/latest finish times for each and every activity;**
- (d) **Details, and durations on Site, of the resources proposed to achieve the Contract Programme;**
- (e) **A manpower (resource) histogram detailing cumulative and monthly volumes by trade for the duration of the Works;**
- (f) **A detailed cash flow estimate, in quarterly periods, of all payments to which the Contractor may be entitled under the Contract;**
- (g) **A schedule of all submittals and material procurement activities, including time for submittals, re-submittals and reviews and time for any fabrication and delivery of manufactured products and samples. The interdependence of design, procurement and construction activities must be included in this schedule.]**

5. Testing

It is extremely important to incorporate accurate testing requirements as part of this Contract in accordance with Sub-Clause 8.3. Achieving acceptable test results is one of the conditions to substantial completion, which determines

when the Employer will have to pay the Contractor. It is preferable that the Employer be required to pay the Contractor when the Employer is satisfied that the Works carried out by the Contractor will achieve the results needed by the Employer.

The type of tests and the type of results that will be acceptable to the Employer should be clearly described in this Contract. Sometimes, the best way to represent this will be in tabular form. If referring to an standard, extra care must be taken to ensure that the results referred to in the standard are appropriate. The results should be described in the table or reference should be made to the section in the standard that sets out the type of results that will be acceptable to the Employer.

For example:

Description of test	Required result
In the presence of the Employer's Representative, the Contractor must carry out the tests set out in AS 1228-1997 on each weld.	100% of the welds must achieve 100% compliance with AS 1228-1997.

5 Reporting Requirements

[insert any regular reporting requirements (see Sub-Clause 4.1)]

6 Documentation

[insert relevant documentation]

7 Timing, Milestones

The Contractor must comply with the following timing requirements:

[List the Employer's timing requirements(if any)]

The Contractor must achieve the following milestones:

[List milestones to be achieved (if any)]

If there is too much information to be physically included in this Schedule, you can incorporate the appropriate documents by reference. If this is done, you must clearly identify the documents by author, title, date and revision number. Take care not to include parts of documents that do not relate to the Works.

In preparing this Schedule, you should take extreme care to ensure that all of the Works which the Employer wants the Contractor to perform are included in order to reduce the likelihood of disputes at a later date, and to reduce the likelihood that Contractors may seek to profit from variations in the future.

SCHEDULE 3 - SCHEDULE OF SITE**Note:**

This Schedule must set out a detailed description of the Site on which the Works will be performed.

For example, this Schedule could be set out in the following manner:

1. Description of the Site

[insert site details including address and include or refer to drawing numbers or maps of the Site]

2. Other sites

[insert details of other sites, if any, which about the Site and which the Contractor needs information in order to perform the Works. For example, the Site may be Unit 1 of the Power Station and the Contractor will require details of the remainder of the Power Station Site]

3. Access to the Site

[insert details of access and any conditions which may impact on access of which the Contractor should be aware]

4. Site Arrangements

The Employer's Site Arrangements are attached as Annexure A. The Contractor acknowledges that they have read and understood the Employer's Site Arrangements.

5. Site Security

[Insert any site security requirements in accordance with Sub-Clause 4.17]

SCHEDULE 4 - SCHEDULE OF CONTRACT PRICE**Note:**

This Schedule must set out the Contract Price (stating whether it is a lump sum price or based on a bill of quantities), and a detailed breakdown of the Contract Price.

If there are any provisional sums they must be described in detail in this Schedule.

If this is a lump sum contract, insert “Not applicable” under the heading “Bill of Quantities”. If rates and prices are included only for the purpose of valuing Variations, this must be made clear and they must be inserted under the heading Schedule of Rates for Variations.

If the rates are to be adjusted for the rise or falls in the cost of labour, goods or other inputs this entitlement must be stated separately in this Schedule including the formula for making such adjustments.

For example:**1. Contract Price**

[If this is a lump sum contract, insert the lump sum amount and include the clearest breakdown of the Contract Price that you can obtain. This may be in tabular form.]

OR

If this is a measured price/re-measurement contract insert the amount of the estimated Contract Price and the following: “The Works shall be measured and valued for payment and the final Contract Price will be determined on the basis of the actual quantities of work and materials utilised in the complete and satisfactory performance of the Works as certified by the Employer’s Representative at the appropriate rate or price specified in the Bill of Quantities.”

2. Bill of Quantities

[Insert any applicable Bill of Quantities. If the Bill of Quantities is too large to be physically included in this Schedule it should be incorporated by reference and then, the actual Bill of Quantities should be annexed to the Contract. If this is done, the Schedule must clearly identify the Bill of Quantities by author, title, date, revision number and annexure number.]

If there are no rates and prices, you should insert “Not Applicable under this heading”

3. Provisional sums

[If applicable under Sub-Clause 11.10, provide clear details of any provisional sums that may apply to the contract and the activities to which those sums relate.]

4. Schedule of Rates for Variations

Note: it is advisable to include in Variation rates any items that may be reasonably foreseeable to be utilised in a Variation even if not included directly in the known scope of works at the time of bidding. In the event that a variation is required that utilises items not included in the schedule of variation rates or BOQ, UNOPS procurement rules may require a waiver to enact a variation as the rates will be outside of the procurement process utilised to award this Contract

The rates for the purposes of valuing Variations are set out below.

The rates set out are fixed for the duration of the Contract and are not subject to escalation or adjustment for rises or falls in the cost of labour, goods, material and other inputs to the Works. The rates set out in the Schedule of Rates also include provision for Contractor's overheads and profit.

[Insert any applicable schedule of rates]

5. Schedule of Rates for Daywork

Dayworks rates are set out below. The dayworks rates are fixed for the duration of the Contract and are not subject to escalation or adjustment for rises or falls in the cost of labour, Goods, material and other inputs to the Works. The dayworks rates also include provision for Contractor's overheads and profit. **[Insert any applicable schedule of rates]**

6. Adjustments for Changes in Cost

Note it is not recommended to include adjustment for changes in cost unless it is regulated in the country of the Works or is in such wide spread use that contractors would be hesitant to bid competitively without using adjustment. It may be worth considering utilising adjustment changes in cost on works with long durations in locations with high inflation characteristics. Take note of the additional complexity of budget planning and control and management of payments and claims.

[Delete whichever is not applicable. There are three options:]

- 1. "The Contract Price will not be adjusted for rises or falls in the cost of labour, Goods and other inputs to the Works"**

Or

2. “The Contract Price will be adjusted for rises and falls in the cost of labour, Goods and other inputs to the Works as follows: [insert details/formula of how the adjustment will be measured, evaluated and paid”

SCHEDULE 5 - SCHEDULE OF PAYMENT

[Note: This Schedule must set out the timing for the submission of applications for payment and any entitlement to an advance payment of the Contract Price.]

1. Advance Payment

[Note: two options are listed below. Delete whichever option is not appropriate. Note it is recommended to avoid advance payment wherever possible. In an environment where contractors would generally have insufficient cash flow or access to funds to enable works to commence you may utilise advance payments. UNOPS FRR specify the threshold for security of advance payments If using advance payments it is recommended to obtain security in all cases regardless of the threshold. If using advance payments plan to recover advance payment approximately half way through the works. If using advance payments set the minimum amount that will enable contractors to mobilise and reach the first payment. Payments should be frequent .]

[Option A

Upon receipt of the Statement, the Bank Guarantee for performance and the Bank Guarantee for advance payment referred to in Sub-Clause 11.3 the Employer will pay the Contractor [insert amount or % of the Contract Price] as a loan for mobilisation and design.

The Employer will deduct [20%] from each subsequent application for interim payment until the advance payment amount is repaid in accordance with Sub-Clause 11.3 [Advance Payment].]

[Option B

The Contractor is not entitled to an advance payment.]

Note:

Various payment options are listed below.

Delete whichever option is not appropriate.

["Option 1 - Monthly Progress Payments

On the [insert date] of each month (or as otherwise agreed by the Parties) the Contractor must submit an invoice to the Employer's Representative."]

or

["Option 2 - Milestone Payments

Within [insert days] of completion of each milestone set out in the milestone payment schedule below, the Contractor must submit an invoice to the Employer's Representative for the relevant amount payable on achievement of the milestone.

[insert milestone payment schedule]"

or

["Option 3 - Lump Sum Payment

Within [insert days] of completion of the Works, the Contractor must submit an invoice to the Employer's Representative for the relevant amount payable on completion."]

An option is to back end the payment in the Payment Schedule and include an amount which will be paid x days after the Date of Substantial Completion or on the expiry of the Defects Liability Period.
